DAS DEPARTMENT OF ADMINISTRATIVE SERVICES STATEWIDE PROCEDURE	**NUMBER** 107-011-115_PR	**SUPERSEDES** Previously included in Policy 107-011-115
	EFFECTIVE DATE June 10, 2025 **LAST REVIEWED DATE** June 10, 2025	**PAGE NUMBER** Pages 1 of 4
DIVISION Enterprise Asset Management **PROCEDURE OWNER** Real Estate Services	**REFERENCE/AUTHORITY** • ORS 184.421-ORS 184.423; 276.001-276.990 • ORS 197.180 (State Agency Coordination Program) • Executive Orders 94-07, 00-23, 06-02, 10-01, 17-20, 17-21, 20-04 • OAR 125-110-0001 (Land Use Coordination Rule) • OAR 125-120-0000-125-120-0170 (Renting or Leasing Office Quarters) • Policy: 107-011-100 and 107-011-010 (as applicable) • Policy: 107-011-115	
SUBJECT Siting State-Owned and Leased Office Space Procedure	**APPROVED SIGNATURE** Berri Leslie Berri Leslie, DAS Director	

PURPOSE

To outline the process for implementing Statewide Policy: 107-011-115 Siting State-Owned and Leased Office Space.

APPLICABILITY

This procedure applies to all state agencies, boards, commissions and facilities owned by state agencies that are subject to Department of Administrative Services (DAS) Statewide Policy 107-011-115.

FORMS, EXHIBITS AND INSTRUCTIONS

- Office Space Request Form 125601
- Space Standard Exemption Request Form 125610
- Project Authorization in DAS-owned space, Interior Project Remodel Form 125602
- Green Leasing Checklist
- Leasing Services for State Agencies Process
- Workspaces Reimagined for Oregon's Hybrid Workforce

PREFERRED AREAS

(1) In existing DAS-owned or state-owned buildings; and then, if no suitable DAS-owned or state-owned space is available;

(2) In existing DAS-leased facilities or facilities where co-location with other state agency or local government entity is feasible; and then, if no suitable DAS-leased facilities or co-location opportunities exist;

(3) In or surrounding the central business district of cities, and the "Capitol area" of Salem, as defined in ORS 276.010; or

(4) In other areas, whether designated as urban centers in the applicable comprehensive plan or historic downtowns, which are additionally highly accessible to the public, have fully developed pedestrian circulation system(s), or have high quality transit service (in those areas that have transit).

PROCEDURE

RESPONSIBILITY	STEP	ACTION
Agencies	1	Agencies must give preferential consideration to those locations within preferred areas when siting and selecting office space and other facility needs where practical. This procedure is intended to encourage: • Compact, mixed-use, energy-efficient development and the re-development of central business districts (and other preferred areas) designed to encourage pedestrian friendly architecture and urban design, biking and transit use, where transit is available; • Economic vitality and revitalization by supporting sustainable development in the preferred areas with the state's own business activity; and • Compatibility with statewide planning goals, land use regulations, agency sustainability goals in ORS 184.423 and applicable zoning and comprehensive plan requirements.
	2	**Sustainability:** When feasible, practical and in the best interest of the state according to ORS 276.429, when siting new locations, agencies must: • Within preferred areas, seek locations that use benchmarking criteria such as ASHRAE 100 or Energy Star or have developed a plan to use such benchmarking criteria within the next five years; • Consider other resource conservation measures such as water use efficiency, EV charging infrastructure, third-party sustainability certifications (e.g., LEED), availability of recycling, and access to energy and water use data; • Consider climate resiliency or adaptation such as risks from wildfires, flooding, drought, sea level rise and heat.

RESPONSIBILITY	STEP	ACTION
Agency, DAS, private leasing market and other interested parties	3	**Coordination:** Except in the case of emergency, generally when leasing new office space over 10,000 rentable square footage (rsf) in the private leasing market, or in DAS' reasonable discretion, DAS will also notify (without limitation) potential siting locations to: • interested parties who have contacted DAS to be notified in these instances • other state landowning agencies • local city or county governmental units and officials (as well as the urban renewal, economic development and other similar departments therein) • the State Historic Preservation Office (SHPO) (as applicable) • the Governor's Regional Solutions Center, and • transit and other special districts (such as fire and library districts) When leasing, DAS must provide a reasonable amount of time for interested parties to respond.
DAS real estate services manager	4	**Exemption and special situations:** To obtain approval from the DAS director or designee or to locate office space outside of a preferred area, a tenant agency must email an exemption request to res.info@das.oregon.gov. The exemption request must include the number of full time employees that will be at the location and other relevant information required from the Workspaces Reimagined website or reasoning such as the tenant agency's functional business need and special programmatic requirements (i.e., serving a specific client population or geographic area or requiring specialized equipment) or use (i.e., non-office functions, such as storage, warehouse or lab space) requested. The DAS director or designee may encourage or require that the exempted location be located close to transit, in communities that have transit services. Existing leases outside of preferred areas are exempt from this siting procedure and the accompanying DAS Statewide Policy 107-011-115, if the tenant agency can demonstrate that such lease extension is in the long-term best interests of the state according to ORS 276.428 (2).
DAS real estate services manager	5	**Exemption considerations:** When determining whether to approve an exemption request, the DAS Director or designee may also consider: • Priorities of the work unit • Whether available space provides adequate ground floor space to accommodate public-facing state activities • Type of facilities available vs. type of facilities requested by the tenant agency • Structural function and utility of the facility for the particular transaction

RESPONSIBILITY	STEP	ACTION
		• Energy efficiency design to minimize the use of energy resources and to advance the state's goals for energy efficient buildings and reduced greenhouse gas emissions as set forth in EO 17-20, EO 17-21, EO 20-04, ORS 184.421 to 184.423, and DAS Statewide Policy 107-011-010, if applicable • Indoor air quality and operation and maintenance costs • The proposed lease term and any concessions negotiated • Total value of the transaction (including concessions) and resale value of the facility, if the facility is purchased
