Review the list of assigned CAs semiannually to verify all CAs are still assigned to relevant contracts. 3. Assign another CA if a designated CA is no longer appropriate (e.g., no longer employed by OSH, transferred to another role). 4. Verify CA training has been completed and documented.
Contract Administrator (CA)	1. Complete required Oregon Health Authority Office of Contracts and Procurement contract administration training (unless the training has already been completed) before assignment. 2. Complete the OHA Roles and Responsibilities Matrix to delegate any contract administrator duties. 3. Monitor assigned contracts on an ongoing basis, including weekly updates of contract expenditures for accuracy and appropriate billing, and monitoring total expenditures against the "do not exceed" level, or the dollar amount listed in each contract that cannot be exceeded for services provided. 4. Coordinate all needed contract adjustments to the "do-not-exceed" limit. 5. Monitor contract expiration dates and verify all contracts are reviewed for renewal within the allocated timeframe.
Manager	Evaluation of clinical contractor: 1. Perform official contract–contractor performance evaluations for all assigned clinical care contracts. 2. Conduct contract performance evaluations at least annually, 30 days before the annual contract expiration anniversary date. Conduct evaluations more frequently if the contractor's performance is not at the expected level of performance or as specified in the contract. 3. Use the "OSH Contract Evaluation: Determining Which Form To Use" flowchart to determine which form is appropriate to use for the contractor performance evaluation. 4. Complete the appropriate evaluation form and review with the contractor. Maintain completed evaluations on file with each CA and with the Business Analysts' office.
