

OREGON STATE HOSPITAL

POLICY

SECTION 6: Patient Care **POLICY: 6.065**

SUBJECT: Pregnant Patient Care, Labor,
and Birth

POINT PERSON: Chief Medical Officer

APPROVED: Sara Walker, MD  **DATE: JULY 25, 2024**
Interim Superintendent

SELECT ONE: ☐ New policy ☐ Minor/technical revision of
existing policy
☒ Reaffirmation of existing policy ☐ Major revision of existing policy

I. PURPOSE AND APPLICABILITY

- A. Oregon State Hospital (OSH) will provide a pregnant patient with care necessary to support the mother and baby's health and safety throughout the pregnancy, labor, and birth. This policy outlines the parameters and requirements of care for pregnant patients.
- B. This policy applies to all staff.

II. POLICY

- A. A pregnant patient's interdisciplinary treatment team (IDT) must consult with the Program Executive Team to establish a plan of care. The patient's treatment care plan must include plans for term pregnant care and a safety plan for the baby if they are born at OSH.
- B. While in labor, a patient may not be put in secure transport restraints (STRs) during transportation to or during labor at an acute-care hospital. This exception does not apply to a pregnant patient who is not in labor.
- C. A patient who is in labor may be buckled for safety during transportation as directed by emergency medical services (EMS) personnel.
- D. OSH follows all applicable regulations, including federal and state statutes and rules; Oregon Department of Administrative Services (DAS), Shared Services, and Oregon Health Authority (OHA) policies; and relevant accreditation standards. Such regulations supersede the provisions of this policy unless this policy is more restrictive.

- E. Staff who fail to comply with this policy or related policy attachments or protocols may be subject to disciplinary action, up to and including dismissal.

III. DEFINITIONS

- A. "Interdisciplinary treatment team (IDT)" includes the attending psychiatrist/psychiatric mental health nurse practitioner (PMHNP), registered nurse (RN), psychologist, social worker, mental health therapist MHT or case monitor, treatment care plan specialist (TCPS), and any other clinical staff member who provides active treatment to the patient. The IDT is responsible to coordinate in planning and overseeing a patient's care and treatment.
- B. "Staff" includes employees, volunteers, trainees, interns, contractors, vendors, and other state employees assigned to work at Oregon State Hospital (OSH).

IV. PROCEDURES

Procedures A Pregnant Patient Care, Labor, and Birth Procedures
