

OREGON STATE HOSPITAL

POLICY

SECTION 8:	Safety, Security, Emergency Management	POLICY: 8.021
SUBJECT:	Key Inventory and Control	
POINT PERSON:	Director of Facilities	
APPROVED:	Sara Walker, MD  Interim Superintendent	DATE: JULY 25, 2024
SELECT ONE:	☐ New policy ☒ Reaffirmation of existing policy ☐ Minor/technical revision of existing policy ☐ Major revision of existing policy	

I. PURPOSE AND APPLICABILITY

- A. Oregon State Hospital (OSH) staff will be given reasonable and timely access to the hospital areas for which they need to perform their job safely and effectively. This policy establishes requirements for issuing keys and responsibilities concerning possession and issuance of keys.
- B. This policy applies to all staff.

II. POLICY

- A. Only an OSH locksmith is permitted to reproduce, cut, or stamp keys based on the Schlage Everest-B master key system. Locks and keys based on non-Schlage Everest-B systems may only be used with the approval of the OSH Salem Lead Locksmith and as allowed in this policy.
- B. All keys issued by OSH are considered to be loaned keys and are not the property of the recipient. Once issued, keys may not be altered, taped, or otherwise marked.
- C. Keys may only be issued on an as-needed basis.
 - 1. A recipient may not be issued or permitted to carry two or more of the same key.
 - 2. A recipient may not be issued or permitted to carry a lower-level key if a higher-level master key was already issued to the recipient.
 - 3. Lower-level keys must be turned in before master-level keys will be issued.
- D. Only the final recipient may sign key issuance receipts.

- E. A key recipient may not transfer or loan their issued key to any other person.
- F. If a key is no longer needed or obsolete, it must be immediately returned to the original issuing location's Reception or lock shop. If a staff member transfers to a different department, the supervisor from the former department must direct the staff member to return the keys that are no longer needed.
- G. Keys may be assigned to program or departmental key cabinets subject to the Salem Lead Locksmith's approval.
- H. With the exception of padlocks on employee lockers, personally-owned locking devices are not allowed in OSH.
- I. Requests to change a door lock function or to have a key cylinder core keyed differently than the area's normal key system requires the written approval from the program director, department director, or Security Director.
- J. The locksmiths may deny a key request for security reasons.
- K. Disputes related to the issuing of keys, access to departmental key cabinets, or use of loaner keys must be presented to the Security Director for resolution.
- L. Reports on key status (e.g., issued, overdue, lost, stolen, broken or destroyed) and reports on metal key accessed doors must be made available upon request.
- M. The Office of Human Resources must notify the lock shops and motor pools of all staff name changes, lateral transfers, demotions, promotions, and separations.
- N. Master keys and sally port keys may be maintained in a locked key cabinet for Security manager's use. These keys may be temporarily loaned to non-supervisory staff in emergency situations only.
- O. Departmental key cabinets must be audited.
 - 1. Department management or supervisory staff must perform an audit on keys issued from their departmental key cabinet once per shift.
 - 2. Discrepancies must be reported immediately to the Director of Security. The lost key process in this policy must be followed.
 - 3. The local lock shop must perform an annual audit of each departmental key cabinet.
- P. Keys must be returned to the original issuing location's Reception or lock shop, including keys recovered after an employee's separation.
 - 1. Separating staff must pay any replacement charge fees for all lost keys or keys not returned before receiving their final paycheck.
 - 2. The Reception or lock shop receiving the key must record the key number, sequence number, and returned date on a "Key Return Receipt" form (OSH-PLO0086 1-7/90).

3. A copy of the key return receipt must be offered to the person returning the key.
4. If the key was returned to Reception, the key must be immediately returned to the lock shop that issued it.

Q. OSH follows all applicable regulations, including federal and state statutes and rules; Oregon Department of Administrative Services (DAS), Shared Services, and Oregon Health Authority (OHA) policies; and relevant accreditation standards. Such regulations supersede the provisions of this policy unless this policy is more restrictive.

R. Staff who fail to comply with this policy or related policy attachments or protocols may be subject to disciplinary action, up to and including dismissal.

III. DEFINITIONS

- A. "Departmental key cabinet" means any storage area used for organizing OSH keys or rings of keys which are loaned to staff.
- B. "Key issuer" for the purposes of this policy means staff authorized to give or exchange keys with the final key recipient. In this policy, key issuer includes locksmiths and Reception personnel.
- C. "Staff" includes employees, volunteers, trainees, interns, contractors, vendors, and other state employees assigned to work at Oregon State Hospital (OSH).
