

OREGON STATE HOSPITAL

POLICY

SECTION 8: Safety, Security, Emergency Management **POLICY: 8.045**

SUBJECT: Injured Staff Transportation

POINT PERSON: Chief Medical Officer

APPROVED: Jim Diegel

DATE: MAY 1, 2026

Jim Diegel

Jim Diegel (May 1, 2026 10:18:55 PDT)

Interim Superintendent

SELECT ONE: ☐ New Policy ☒ Policy Revision
☐ Reaffirmation of Existing Policy

I. PURPOSE AND APPLICABILITY

- A. Policy Statements as delineated in this policy and within the parameters of Oregon State Hospital (OSH) licensing requirements, OSH will offer transportation options to a staff member who experiences an injury, including an apparent emergency medical condition, during the course of their work duties of sufficient severity to necessitate further medical assessment or care. Only the Administrator on Duty, Chief Medical Officer, or Chief of Medicine may authorize an exception to this policy.
- B. This policy applies to all Staff.

II. GUIDELINES

- A. If a staff member appears to be injured, staff shall initiate Code Blue per OSH Policy 8.038, "Code Blue Medical Emergency," and as needed, follow provisions of OSH Policy 8.002, "Emergency Care Provided by OSH".
- B. A physician, nurse practitioner (NP), or registered nurse (RN) shall conduct a basic clinical assessment to identify any apparent injuries or conditions requiring attention.
1. The assessment conducted by a physician, NP, or RN under this policy is limited to a basic clinical evaluation to identify any immediate or observable concerns related to the reported injury. This assessment is not intended to establish a diagnosis, determine the cause of an injury, or provide extended medical treatment. Its purpose is solely to assist with immediate first aid

decisions, inform transportation options, and next steps as outlined in this policy.

- C. If the clinical assessment determines that the staff member requires emergent medical care, defined as a condition that presents as an imminent risk to life, health, or bodily function and requires rapid intervention, an ambulance will be called, regardless of the staff member's stated preference. If a staff member declines ambulance transport after it arrives, they shall sign an ambulance declination. A non-emergency is a situation that is not immediately dangerous or serious, does not pose an immediate threat to life or health, and can be addressed without rapid intervention. In non-emergency situations, an ambulance should not be called.
- D. If the clinical assessment indicates that the circumstances do not require ambulance transport, but the staff member should discontinue work duties and obtain further medical evaluation or care, the staff member may arrange transportation through available options as permitted under this policy.
- E. If a staff member transports an injured staff member for further medical assessment or care as recommended by the assessing physician, NP, or RN, they must do so while off duty.
 - 1. A state vehicle may not be used to transport injured staff to medical facilities.
- F. If the injured staff member does not have transportation back to OSH from the medical facility, they may call OSH reception and request a ride back to campus. Once medically cleared, security may transport staff back to campus in a state vehicle.
 - a. Salem Reception Center 503-945-2800.
 - b. Junction City Access Control 541-465-3000.
- G. If the injured staff member chooses not to call the OSH reception center for transportation back to OSH following medical assessment or care, they are responsible for arranging their own transportation.
- H. Leave used for reasons described in this policy must follow applicable bargaining agreements, state policies, and other regulations.
- I. OSH follows all applicable regulations, including federal and state statutes and rules; Oregon Department of Administrative Services (DAS), Shared Services, and Oregon Health Authority (OHA) policies; and relevant accreditation standards. Such regulations supersede the provisions of this policy unless this policy is more restrictive.

SUBJECT:	Injured Staff Transportation	POLICY NUMBER: 8.045
DATE:	May 1, 2026	Page 3 of 3

- J. Staff who fail to comply with this policy or related policy attachments or protocols may be subject to disciplinary action.
