

OREGON STATE HOSPITAL

POLICY

SECTION X: Patient Care **POLICY: 6.011**

SUBJECT: Treatment Care Planning

POINT PERSON: Chief Medical Officer

APPROVED: Jim Diegel

Interim Superintendent

DATE: 10/10/2025

SELECT ONE: ☐ New policy

☒ Minor/technical revision of existing policy

☐ Reaffirmation of existing policy

☐ Major revision of existing policy

I. PURPOSE AND APPLICABILITY

- A. Oregon State Hospital (OSH) uses treatment teams made up of staff from different areas (called an Interdisciplinary Treatment Team or IDT). These teams work together to give patients care that is focused on recovery, safety, and respect.
- B. This policy applies to all staff on IDTs.

II. GUIDELINES

- A. Every patient must have their own treatment care plan (TCP). This plan is made by the IDT in collaboration with the patient. The plan lists all treatments the patient will receive and is based on staff assessments. The team looks at risks, treatment needs, and goals for recovery and discharge.
- B. For the first 10 days in the hospital, patients follow an Initial Plan of Care (IPoC) as specified in Procedures A.
- C. Staff must follow the rules in this policy for adding special treatments and programs to a patient's care plan.
- D. The patient, their legal guardian, or chosen representative must be included in planning. If applicable, other persons important to the patient may also be included, at the patient's request or with their consent.
- E. A psychiatrist, psychiatric nurse practitioner (PMHNP), or a designated psychologist must lead the making and updating of the TCP.
 - 1. The plan must be updated the next business day if there are big changes in the patient's condition (for example, a new medical issue). Discipline representatives

must attend all scheduled TCP review meetings as specified in the attached procedures.

F. Staff from each discipline must attend review meetings.

1. Each team member must share updates from their area of care (see Attachment A, "Discipline Scope").
2. If they cannot attend, they must give updates before the 30-day meeting.

G. For patients in Secure Residential Treatment Facility (SRTF) units, staff must use the assessments in OSH Policy 6.042 (START).

H. Oregon State Hospital (OSH) follows all applicable regulations, including federal and state statutes and rules; Oregon Department of Administrative Services (DAS), Shared Services, and Oregon Health Authority (OHA) policies; and relevant accreditation standards. Such regulations supersede the provisions of this policy unless this policy is more restrictive.

I. Failure to comply with this policy or related policy attachments or protocols may be subject to disciplinary action.

III. DEFINITIONS

IV. PROCEDURES

- Procedures A Treatment Planning at Admission
- Procedures B Staff Responsibilities for TCP Form
- Procedures C Regular Reviews and IDT Responsibilities
- Procedures D TCP Updates and Changes in Condition

V. ATTACHMENTS

- Attachment A Discipline Scope
