

OREGON STATE HOSPITAL

POLICY

SECTION 6: Patient Care

POLICY: 6.047

SUBJECT: Patient Food

POINT PERSON: Chief Clinical Dietitian

APPROVED: Sara Walker, MD

DATE: SEPTEMBER 19, 2024

Interim Superintendent

SELECT ONE: ☐ New policy

☒ Minor/technical revision of existing policy

☐ Reaffirmation of existing policy

☐ Major revision of existing policy

I. PURPOSE AND APPLICABILITY

- A. This policy establishes OSH's dietary guidelines for patients and food-related procedures.
- B. This policy applies to all patients and must be implemented as written by all staff.

II. POLICY

- A. Oregon State Hospital (OSH) recognizes that food is an integral aspect of wellness and recovery. A healthy, balanced diet makes an important contribution to a person's long-term health and wellbeing. Through person-centered care, education, and evidenced based practices, OSH provides high-quality, safe food that supports flexibility, respects choice, and optimizes health with the goal of leading to successful community transition.
 - 1. To the extent possible and practical, OSH provides and supports healthy food options in all OSH food environments.
 - 2. To the extent practical for the patient's individual needs, patients are given some choice over their food to promote positive food decisions.
 - a. The OSH Diet Manual establishes food choice guidelines for patients.
 - b. Patients on a special diet may be limited to certain alternate meal choices based on what is clinically appropriate for that patient.

3. Food provided to patients may not be modified or withheld from a patient as a reward or punishment.

B. Food Safety

1. Food and Nutrition Services (FNS) must provide oversight for proper food handling, labeling, and storage practices at OSH. Food provided to patients at OSH must meet all established food sanitation rules and regulations.
2. Food may not be stored in patient rooms or patient property rooms. Refer to Procedures C for Patient food handling, labeling and storage.

C. OSH Dietitians oversee the nutritional aspects of patient care and maintain the OSH Diet Manual. Food provided to patients at OSH must meet all established dietary policy, rules, and regulations.

1. The OSH Diet Manual outlines:
 - a. Food practices and guidelines for all approved food sources,
 - b. Available diets at OSH that must be ordered per Procedures A.
2. The OSH Diet Manual is subject to change with notice to staff and patients.

D. Approved Food Source for OSH patients

1. Food sources are categorized as follows:
 - a. OSH Dining Program food - provided by OSH as part of the OSH Dining Program (e.g., breakfast, lunch, dinner, menued snack)
 - b. OSH Non-Dining Program food - provided by OSH that is not part of the OSH Dining Program (e.g., treatment group cooking class, treatment and activity groups, unit kitchenettes, food grown in OSH gardens and greenhouses, food purchases by SPOTS card, incentives, etc.)
 - c. OSH Provided Foods for Patient Purchase – food supplied by OSH for purchase by patients with own funds (e.g. patient market, café, coffee shop)
2. Food provided by OSH is reviewed and approved by designated persons to maintain food code requirements and ensure guidelines in the diet manual are followed.
 - a. For OSH Dining Program food, designated persons include a food service supervisor and a clinical dietitian.
 - b. For OSH Non-Dining Program food, designated persons may include OSH Treatment Services and Nursing.

- i. Clinical Dietitians may audit approval of Non-Dining Program food by designated persons listed above.

3. Dining Program Food

- a. Three meals and menued snacks are made available each day to each patient. Planned Meals are provided to each patient according to a set schedule. When a patient is not able to attend a meal as scheduled (i.e., outing, work schedule, etc.), they can receive a sack meal or clamshell.
- b. Weekly menus must be made available to patients and staff before the beginning date of the menu. Patients in need of translation services may seek services per OSH Policy 1.012 "Non-Discrimination and Alternate Language Access."
- c. Nursing and FNS staff will collaborate to verify each patient receives their diet as ordered.
 - i. When patients eat on the unit, refer to Nursing protocol 2.210 for diet order review, food handling, storage, and labeling.
 - ii. For meal and snack service in dining areas, refer to Procedures B.
- d. Patients on a special diet may be limited to certain alternate meal choices based on what is clinically appropriate for that patient.

4. Non-Dining Program Food:

- a. Patients have access to food in addition to food provided by the OSH Dining Program. These foods can be acquired through Food and Nutrition Services or purchased with a SPOTS card.
- b. Staff providing food must be aware of patient diet orders (found in patient electronic medical record) and providing accommodations as needed for special diets.
- c. Food from the kitchenette or medication room may be available, as appropriate for the patient's diet order, treatment care plan, and unit guidelines.
 - i. A medication-food-beverage compatibility guide is established by OSH Pharmacy for use on all units at OSH during medication administration.
 - ii. Nutritional products supplied to medication rooms require practitioner order and documented when administration successful or unsuccessful.

- d. Food for treatment groups, activities, celebrations, events, or outings or must be provided in accordance with the Diet Manual and are appropriate for the patient's diet order.
 - i. All food purchased with state funds for events, outings, functions, or classes where staff may participate is subject to Oregon Accounting Manual policy 10.40.10, "Non-travel Meals and Refreshments."
- e. All SPOTS card purchases are subject to OSH policy 4.018, "OSH Purchase and Maintenance," Oregon Accounting Manual requirements for purchases with state funds and must adhere to the food guidelines in the SPOTS Card Safety Checklist.
 - i. Food incentives outside of the OSH Dining Program may be offered to patients as appropriate in balance with non-food prizes and incentives. Staff should reference the "SPOTS card safety checklist" found on the OSH Safety Owl page for food guidelines.

E. OSH Provided Foods for Patient Purchase

- 1. A patient may purchase food at the OSH patient market, café and coffee shop for their own consumption with their own funds.
 - a. Food purchased by patients is considered patient property. Patient property is subject to storage and consumption regulations and designated dining area restrictions as defined in this policy, OSH policy 8.037, "Patient Property and Valuables" and Nursing Protocol 2.210 "Handling Patient Food on Units."
 - b. Patients may not share food with other patients or purchase food to be shared with other patients.
 - c. Staff should make a reasonable effort to ensure foods purchased are per the patient's approved diet order whenever possible or practical.

F. Food not provided by OSH:

- 1. Patients with appropriate privileges may purchase outside food for themselves during outings (see OSH policy 6.006, "On-grounds Off-grounds Movement").
 - a. Food must be consumed during the outing and may not be brought back to OSH.
 - b. Food may not be ordered, purchased, or sent to patients from outside OSH.

- c. Staff should make a reasonable effort to ensure outside food is per the patient's approved diet order whenever possible or practical.
2. Visitors must adhere to OSH policy 8.026, "Visitors to Patients," including any restrictions regarding bringing or sending food to patients.

G. Caffeine

1. OSH supports a balanced approach with caffeine for patients to enjoy the positive aspects of caffeine use while safeguarding their mental health and overall well-being.
2. Refer to procedure D for Coffee Guidelines. Coffee and associated equipment must be obtained through Food and Nutrition Service.
 - a. Though not restricted, consumption of caffeinated soda and tea may be limited when contraindicated.
3. Interdisciplinary teams (IDT) retain the authority to implement specific caffeine restrictions for residents within their Treatment Care Plan (TCP) if it is determined that an individual is unable to self-regulate their caffeine consumption.
4. Energy Drinks and similar beverages will not be made available for patient consumption on any OSH campus.
5. Refer to Oregon State Hospital Patient Property/Items access list for non-OSH issued coffee and tea

H. Patients must consume food in designated dining areas unless behavior, health, work, an appointment, a trip, school, or other activity prohibits participation.

1. Exceptions may be granted on a case-by-case basis by the Superintendent or Chief Medical Officer (CMO).
2. Patient workers working along-side FNS staff may be granted an exception to designated dining area restrictions by the Director of FNS as appropriate or necessary.

I. OSH values diversity and strives, where possible and practical, to accommodate cultural and faith system-based food requests. Patients may make special food requests per the Diet Manual.

J. Oregon State Hospital (OSH) follows all applicable regulations, including federal and state statutes and rules; Oregon Department of Administrative Services (DAS), Shared Services, and Oregon Health Authority (OHA) policies; and

relevant accreditation standards. Such regulations supersede the provisions of this policy unless this policy is more restrictive.

- K. Staff who fail to comply with this policy or related policy attachments or protocols may be subject to disciplinary action, up to and including dismissal.

III. DEFINITIONS

- A. "Clam shell" in this policy means a disposable, one-piece container consisting of a bottom half and a top half connected at a hinge, which, when closed and latched, provides a sanitary and secure means of transporting and serving hot or cold food items.
- B. "Cook to serve item" means items that must be prepared (i.e., cooked) prior to serving.
- C. "Designated dining area(s)" include:
1. Unit common area
 2. Unit kitchens
 3. Dining hall
 4. Café/cafeteria dining area
 5. Other areas approved for special events on a case-by-case basis
- D. "Dining hall" means a patient meal service area attached to either a Salem campus satellite kitchen or the Junction City production kitchen. A production kitchen means the main patient food storage, preparation, and distribution area for each OSH campus.
- E. "Directly consumable foods" are foods that are ready to eat and are safe for consumption that have been removed from their original packaging or OSH prepared container.
- F. "Food environments" include environments where patients may access OSH-provided food such as the dining hall, café, cafeteria, market, and unit kitchenettes. "Food environment" also refers to the patient's experience with food at OSH.
- G. "Isolation" means the involuntary placement of a patient, who is suspected of or is diagnosed with a serious, highly infectious disease, alone in a locked room or area when it is medically necessary to prevent the spread of that infectious disease to other patients or staff. Isolation is not a form of restraint.

- H. "Menued Snack" are snacks as listed on the weekly menu for the OSH Dining Program.
- I. "OSH Dining Program/Service" in this policy means meals that are planned, provided by OSH, and served to patients at scheduled times (breakfast, lunch, dinner, snack).
- J. "Ready to eat item" means food items that are pre-packaged and do not require preparation prior to consumption.
- K. "Secure perimeter" means restricted high-security buildings, areas, and quads within the sallyport exits operated to management movement of persons within the OSH campus. The secure perimeter areas include all quads, the ball field, and Medical Clinic.
 - 1. The secure perimeter for Salem per OSH policy 6.006, "On-grounds Off-grounds Movement" includes the Kirkbride café, chart rooms on every unit, and the cubicle areas other than in Kirkbride building (floors 2-4).
 - 2. The secure perimeter for Junction City per OSH policy 6.006 includes the Valley café, chart rooms on every unit, and the first-floor cubicle area.
- L. "Serious, highly infectious disease" is a communicable disease which is widely considered highly contagious, which may lead to serious health consequences for a patient, including death.
- M. "Special diet" means the amount, type of ingredients, or selection of food or drink items is limited, restricted, or otherwise regulated for clinical or other therapeutic reasons. A special diet at OSH is more restricted than the DASH diet plan offered to all patients. Examples of special diet options at OSH include, but are not limited to:
 - 1. Vegan
 - 2. Gluten free
 - 3. Allergy-restricted diets (egg allergy or intolerance, shellfish allergy or intolerance, peanut/tree nut allergy, dairy intolerance, etc.)
- N. "Staff" includes employees, volunteers, trainees, interns, contractors, vendors, and other state employees assigned to work at Oregon State Hospital (OSH).
- O. "Transporting staff" in this policy means staff transporting patients between locations within the secure perimeter. Transporting staff are not escorting staff.

IV. PROCEDURES

Procedures A Diet Orders

Procedures B Meal and Snack Services

Procedures C Food Handling, Labeling, and Storage

Procedures D Coffee
