

OREGON STATE HOSPITAL

POLICY ATTACHMENT

PROCEDURES A: Wandering

POLICY: 8.041

POINT PERSON: Director Security

APPROVED: Sara Walker, MD
Interim Superintendent

DATE: JANUARY 15, 2025

SELECT ONE:

☐ New policy attachment	☒ Minor/technical revision of existing policy attachment
☐ Reaffirmation of existing policy attachment	☐ Major revision of existing policy attachment

RESPONSIBLE PERSON/GROUP	PROCEDURES
Staff who are trained to conduct wandings	1. Appropriate staff must be present prior to conducting a wandering in accordance with this policy. 2. All wandings must occur within view of the video surveillance system. 3. Security staff conducting a wandering must follow department protocols. 4. Move the wandering device within close proximity (around 1 inch from the person) over the patient's clothing and body. 5. If a metal item is detected during the wandering, determine the cause or source of item per security protocols. Do not physically touch the patient during a wandering. If physical touch is required to determine the cause or source, follow Procedures B for a pat down. 6. If a patient refuses wandering, request a registered nurse (RN) to assess the patient for reason to conduct a pat-down.
Registered Nurse (RN)	1. If a patient refuses wandering, assess the patient to determine whether a pat-down is necessary. 2. If a pat-down is considered to be necessary, follow Procedures B, "Pat-down."
