

OREGON STATE HOSPITAL

POLICY

SECTION 9: Staff Training and Development

POLICY: 9.002

SUBJECT: Training for Staff

POINT PERSON: Director of Staff, Education, Engagement, and Development Department

APPROVED: James Diegel

Interim Superintendent

DATE: JUNE 13, 2025

SELECT ONE: ☐ New policy proposal

☒ Minor/technical revision of existing policy

☐ Reaffirmation of existing policy

☐ Major revision of existing policy

I. PURPOSE AND APPLICABILITY

- A. Oregon State Hospital (OSH) provides staff with education and training opportunities to promote the acquisition of knowledge and skills while employed at OSH.
- B. This policy applies to all staff.

II. POLICY

- A. Training provided by OSH must meet applicable state and federal regulations. When required by policy or regulations, staff must demonstrate competency before a training is considered complete.
- B. All staff must attend an orientation to OSH provided by or as directed by the Learning and Development Department.
 - 1. Before providing patient care or services, staff must attend new employee orientation (NEO), and any additional orientation and training required by their department or regulation.
 - 2. Any staff temporarily or permanently reassigned to a new position must receive an appropriate orientation to their new duties. Staff promoting may need to attend NEO, even if they previously attended NEO, to orient to their new duties.
 - 3. Exceptions must be granted by the Superintendent in writing and documented in the staff's personnel records.

- C. All staff must complete mandatory trainings as indicated in Attachment A and as required by state, federal, or other regulations.
 - 1. OSH Executive Team must approve trainings before they are designated as mandatory unless the training is required by regulation.
- D. Staff must complete mandatory trainings within the designated time period as required by policy, regulation, or by the OSH Executive Team.
- E. A department or discipline director may designate certain training as essential for a staff to acquire specific skills to perform assigned duties. These essential trainings are categorized as “manager directed” or “manager requested”. The department or discipline director is responsible for appropriate communication and follow-up regarding these trainings and related competencies.
- F. OSH employees may be eligible to request and attend elective training, meaning training that is available, but not required. Elective trainings are categorized as “employee requested – related” or “employee requested – unrelated.” OSH does not pay for elective training for other staff who are not employees.
 - 1. Employees must follow the “OSH Employee Training and Conference Payment Guidelines” (Attachment B) and complete the Employee Training Request form (Attachment C) when requesting offsite training.
 - 2. Elective training may only be attended with supervisor approval.
 - 3. An approving supervisor or manager must have appropriate delegated financial expenditure decision authority granted per OSH policy 1.016, “OSH Delegation of Authority.”
- G. This policy does not apply to training required by any board or commission for initial or continued licensure or certification required by a staff member’s position. Such training falls under the provisions of OSH policy 4.013, “Professional Credential and Membership Fee.”
- H. Training directed by this policy must be documented in the OSH-designated learning management system, Human Resources, supervisory, or Complementary Personnel Database (CPD) files.
- I. Training instructors must send copies of all lesson plans, supplemental materials, and attendance records to the OSH Learning and Development Department. The OSH Learning and Development Department must maintain records of all class lesson plans and attendance records used in training provided by OSH.
- J. Oregon State Hospital (OSH) follows all applicable regulations, including federal and state statutes and rules; Oregon Department of Administrative Services (DAS), Shared Services, and Oregon Health Authority (OHA) policies; and relevant accreditation standards. Such regulations supersede the provisions of this policy unless this policy is more restrictive.

III. DEFINITIONS

- A. "Career development" means the process of engaging in activities to acquire knowledge or skills which will advance the employee's career.
- B. "Employee" in this policy means a person hired by OSH. Employees in this policy do not include volunteers, trainees, interns, contractors, or other state employees assigned to work at OSH.
- C. "Employee-requested training – related" means training requested by the employee that is not required for the position and is not directly linked to their specific job duties but is related to their job or field and is intended for employee growth or development.
- D. "Employee requested training – unrelated" means training requested by the employee that is not required for the position, has no direct benefit to OSH, and is not related to their job or field.
- E. "Manager-requested training" means training that is not required for the employee's position, but it would directly benefit patients or OSH. The training is requested by the manager and is intended to increase skill and expertise and directly relates to the employee's job duties (e.g., "train the trainer" where the employee trains other employees in that material).
- F. "Staff" includes employees, volunteers, trainees, interns, contractors, vendors, and other state employees assigned to work at Oregon State Hospital (OSH).
- G. "Technical qualification" means a specific learned ability, such as knowledge of software, processes, or other knowledge that applies to specific work-related tasks.

IV. PROCEDURES**V. ATTACHMENTS**

- Attachment A Annual Mandatory Training
- Attachment B OSH Employee Training Request Form
- Attachment C OSH Training and Conference Payment Guidelines

VI. RELATED OSH POLICIES AND PROTOCOLS

- 3.003 Medical Equipment Safety
